# PREAMBLE

Sanguine about reaching the targeted 300 million tonne per annum (mtpa) crude steel production capacity by 2030-31, from about 140 mtpa now, the steel ministry is now preparing a Vision 2047 document under which it intends to jack up capacity further to 500 mtpa.

Strategy needs to be devised to reach target of 300 million tonnes by 2030 and 500 million tonnes by 2047. The Minister said that increase of Iron ore production and other needed raw materials need proper strategic directions with suitable policy support. There is an urgent need to move towards green steel and Hon'ble PM has ambitious vision on Hydrogen. Iron and steel industry will be big beneficiary as coal can be replaced by Hydrogen and our dependency on import of coal also will reduce.

Keeping this in mind, Steel & Metallurgy in association with Messe Dusseldorf India is organising a Conference titled **DALMIA OCL** presents **"VISION 2047 - MISSION 500 MT STEEL PRODUCTION - THE JOURNEY AHEAD"** on **25th November 2022 at Bombay Exhibition Centre, Mumbai**. This conference is being organised in the sidelines of METEC INDIA 2022 exhibition being organised by Messe Dusseldorf India.
